HATI

Hiking
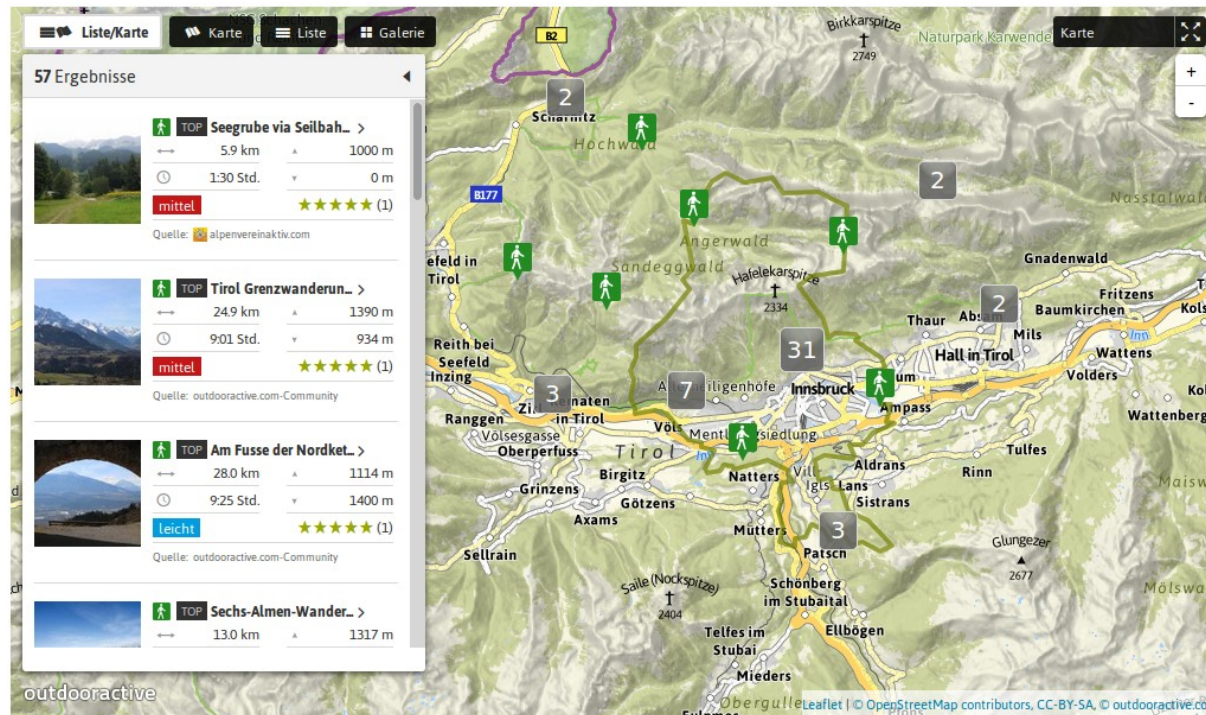

+

and   **T**ransportation

in **I**nnsbruck

Progress

- Set up Node.js server

- Add example OpenStreetMap

- Implement tour search with outdooractive

- Implement single tour design example

- Implement line drawing on map

Services (1)

- http://www.outdooractive.com

- Access through API calls

Services (2)

- http://www.openstreetmap.org

- Access through API calls

Next steps

- Start with public transport graphs

- Combine user location with route starting point

- Implement weather functions

Thank You
